Bertrand Russell Message

It was learned that the well-known English philosopher Bertrand Russell has conveyed a taped message to the conference in the framework of making the conference for the liquidation of foreign military bases a success.

According to the English philosopher, American military bases go hand in hand with the Central Intelligence Agency. He said that those two were always trying to destroy progressive and revolutionary governments and the peoples of the world to enable them to carry out their exploitation and suppression.

In conclusion Bertrand Russel stressed that the struggle for the liquidation of foreign military bases must also mean the extermination of the CIA the world over.
